

BASEBALL BOYS ARE GIVEN A SURPRISE

Manager G. C. Knight, "Dad" Gimlin and the members of the Ogden baseball team were treated to quite a surprise this afternoon by being presented with an elaborate floral offering just before the game with Butte began. There was no ceremony and the reason for the presentation of the gift was made known by a note pinned to the flowers which was read by "Kitty" Knight as follows:

"Ogden, Utah, July 8, 1913. Manager Knight and Members of the Ogden Baseball Club, Gentlemen: In presenting you with this small token of esteem, a few loyal fans of this city wish to express to you their appreciation of the effort you boys have made to win for Ogden."

"While you have played a little errand, perhaps, at times, still we believe each man had his heart in the game and played with all his might to win and we want to assure you we appreciate that earnestness of purpose, even if you did not win as many games as we might have desired."

"We are with you until the last game is played for the season, so go on and do your best and we wish you luck in your efforts."

"(Signed) A Few Loyal Fans."

The offering is of an appropriate design. Two floral baseball bats, crossed at the center with a large ball of carnations above and the intermediate spaces filled in with various flowers, constitute the main design. Beneath the crossed bats is written the words, "Ogden Baseball Team."

Although Manager Knight was taken by surprise at the offering, nevertheless he managed to express his appreciation to those who so loyally contributed to the flowers.

Harry Sims and Joseph Goss were the two instrumental in raising funds and they found the business men and others of the city only too pleased to donate the amount necessary to have the design made.

It had been conveyed to the grounds by the florist and few of the fans knew what was coming. It was after the umpire had announced "play ball" that the piece was brought to the plate.

LABORERS ARE GOING TO THE WHEAT FIELD

Trains for the northwest are crowded in many instances with harvest hands sent out from employment offices in different parts of the country. They will work in the fields of Washington, Oregon and other states in the northwest. It is said that there is more work to be done in that country than laborers to do it.

FORMER OGDENITE IS ON A VISIT

P. Peterson of Belle Fourche, South Dakota, is spending a few days with friends in Ogden, on his way to California where he will join his family on a short vacation.

CANYON CARSON 30 MINUTE SCHEDULE

For the accommodation of N. E. A. visitors tomorrow, the canyon observation cars will be operated to the Hermitage every thirty minutes after 10 o'clock. The regular schedule time for 40 minutes will be maintained up to 1 o'clock.

It is expected that there will be a large crowd of educators take advantage of the trip to the beautiful gorge and the Rapid Transit company has made arrangements to take good care of them.

DENTISTS IN SESSION.—Dentists of Ogden City, Mo., July 8.—With more than 2,000 delegates present from all parts of the United States, the seventh annual convention of the National Dental Association was called to order here today by Frank O. Henderson, president of the association. The convention will be in session four days.

NEW ORCHESTRA NOW BEING FORMED

With the Isis orchestra as a basis, Conductor Fisher Thompson is organizing a symphony orchestra and hopes in the near future to give Ogden music lovers an opportunity of hearing some of the heavier numbers played by the orchestra under his direction. Rehearsals are held at the Isis theatre on Tuesday mornings and practically every orchestra musician of the city attends. Because many are engaged in the afternoons and evenings, it is probable that the concert will be given some morning at the Isis theatre, which is one of the coolest places in the city.

WHITE WAY TO BE READY IN 10 DAYS

Tomorrow the Merchants' Light & Power company will begin stringing wires for the electric lamps in the "Great White Way" and the Ogden Rapid Transit company will also begin placing its span wires for the trolley wires.

It is said by the managers of the two companies that it will not require more than about ten days to complete the wiring and make available the new lighting system. All material is on hand and it is only a matter of putting it in place for the service. The poles have been set along the streets embraced in the district from Wall to Washington avenues and from Twenty-second to Twenty-sixth streets on Washington.

LEVY RELEASED BY THE BUTTE TEAM

With a loyal crowd of fans occupying the grandstand and bleachers, the first game of the series with Butte and the first game on the home grounds after an absence of a month, began shortly after 3:15 o'clock this afternoon.

Sinclair and Perkins were the two slated by Manager Knight to hold down the Butte team and Robinson and Kalfora were the players. Manager Art Merkle of the Butte club offered as his batteries.

Although the train on which the Butte players arrived came in 20 minutes late this morning, not one player took that as an omen of the week. Merkle even threatens to repeat the trick his team did to Ogden at Butte four weeks ago.

Levy has been released from Butte and he is in Ogden waiting for something to turn up. He attended the game today and saw it from the grandstand. Although neither Knight nor Gimlin could give out any definite information, Levy may be signed up by Ogden.

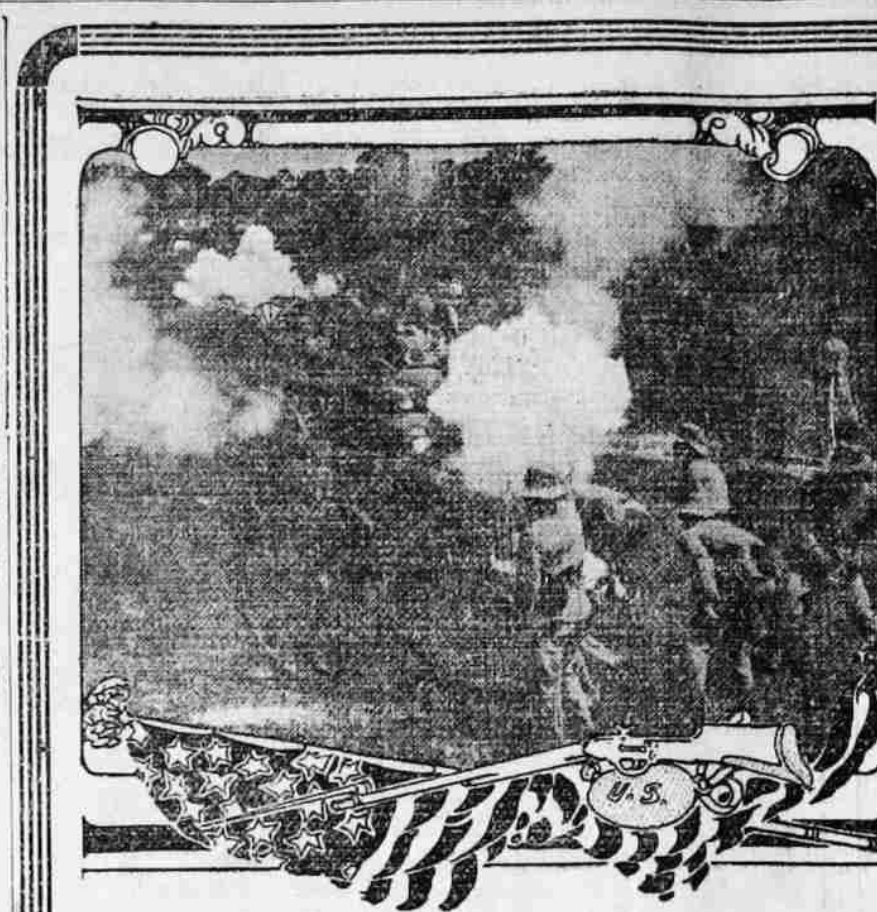

Merkle has a new pitcher coming to join his club tomorrow. The slab artist is no other than MacCreery, the pitcher who played with Murray during the last year of the State league. "Mac" has added considerably to his reputation and it is expected that his work on the mound will result favorably to Butte.

Knight was confident today that the locals will take the series from Butte. The entire pitching staff is in good condition. Knight had a sore arm during the last game with Salt Lake but he will be able to do his best this week. The warm weather too, he states, will bring out all the possibilities in his staff.

MOVIES OF CITY TO BE SEEN MONDAY

Believing that Ogden has many features to be proud of and boosted, the Alhambra Picture House company has taken upon itself to advertise the city by means of a reel of motion pictures. It was through the local people that representatives of the North American Motion Picture company came to Ogden and took the views of the city and its vicinity during the past ten days. After the pictures taken are exhibited in Ogden next week in a local house, the reel will be placed in various theaters throughout the cities of the middle west.

During their stay in the city, G. M. Fought and E. H. Smith have photographed with their motion picture cameras, the cutoff, the canyon on Purple day, the business streets and larger buildings, including some residences. It was planned by the local

GLOBE THEATER

For Four Days Beginning Thursday, July 10th
10 Cents Children 5 Cents

company to have made a reel showing the industrial development of the city and also the scenic features, as with the two combined, as they were, it is believed that a most satisfactory reel for exhibition purposes has been made.

The separate sections of the film are now being developed and finished and will be combined into one long reel. For the purpose of doing the finishing work, a large room on the fifth floor of the Reed hotel has been fitted into a miniature motion picture developing plant. The large tanks and other apparatus have been brought here from Denver and the large windlass upon which the long strips of film are dried was manufactured here.

Part of the reel is now completed and the views have shown up clear and bright. Manager Harry Sims of the Alhambra company has no fears but that the reel will be a great success.

The pictures taken by Fought and Smith of the accident in the canyon will be shown in Ogden, but that part of the reel will not be exhibited in the east.

In explaining how the pictures will be exhibited in the cities where it is believed that such views of the city can be shown with good results to Ogden, Mr. Sims stated that the local company has taken it upon itself to secure houses where such exhibitions will be made.

Monday night will be the opening night for the reel in Ogden.

NO WITNESSES IN POLICE COURT

Today was a "jinx" day in police court. For the first few minutes after court was called it looked as though no one was to be present.

When the clerk read the name of Mabel Brown, that lady stood up but an inquiry as to the witnesses who were to have been there brought the answer that they had not yet appeared. This happens occasionally and nothing was thought of it.

The city against George Curtis, charged with insulting the Indian girl, was called and here again there were no witnesses, although the case had been continued, so the judge discharged the defendant.

Finally the names of prisoners brought over by the sheriff's force was read. There were no witnesses in court, but some were secured by Deputy Sheriff Ellsworth in a few seconds. Then there was no delay. James McCracken, county attorney pro tem, had not arrived.

In a few minutes, however, everything was sailing with the customary smoothness.

Mrs. Mabel Brown was found guilty of vagrancy and was given a sentence of 30 days or \$30. She confessed that her name was Mrs. Mabel Wilbur. Patrolman Blackburn arrested her Saturday night as a result of questionable actions on her part.

Harry Pierce, D. H. Cremons and John Maydo, three men arrested Thursday night in the local railroad yards, where they were sleeping in a box car, were sentenced to serve seven days each in the county jail. The three pleaded not guilty to the charge

of vagrancy, claiming that they had slept in the box car because it was raining and they had no money with which to procure suitable lodging quarters.

MAKING FARMERS OF THE CITY WAIFS.

Transplanting homeless boys of 12 to 16 years of age from the crowded districts of the metropolis to the farms of rural New York is the task attempted by the Lincoln Agricultural school of Lincoln, N. Y., according to information received at the United States Bureau of Education.

This school, which is a charitable institution, takes boys fresh from the city streets, gives them practical training in agriculture, teaches them proper living conditions, and then finds places for them with families of farmers, thus helping the boys to better citizenship and giving the state more and better farmers.

Lincoln school is made as different as possible from the traditional "institution." Groups of attractive cottages replace the old-time single huge structure of the cities. Instead of the big common dining hall usual in charitable institutions, a number of small dining rooms are provided, and each group of boys has a separate sleeping apartment. Every effort is made to produce a real home environment, where the children may develop under conditions as nearly as possible like those of a normal home.

The school has a farm of 600 acres with model dairy buildings and a herd of about 150 cattle. The boys are taught to produce absolutely clean milk and to grow fruit and vegetables by the most modern methods.

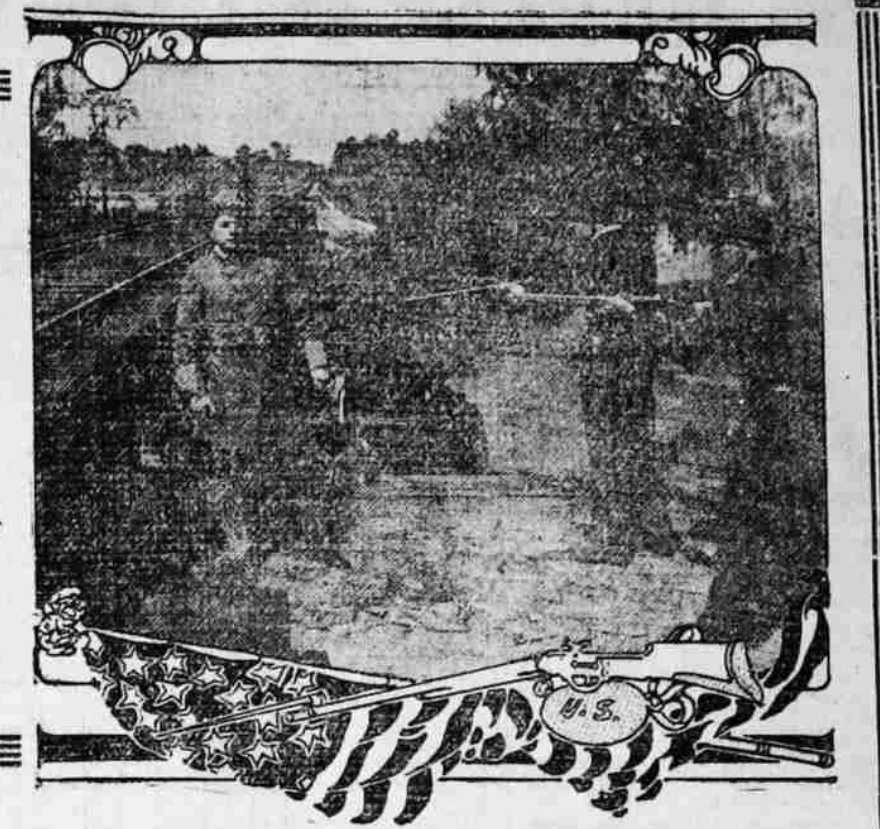

Home and social training is emphasized in the Lincoln School. Not only are the boys trained to be good farmers, but they are fitted for entrance to the better class of rural homes. "We feel that our training makes a boy a very acceptable member of society," declares Brother Barnabas, superintendent of the school. "Our aim is to teach the boy to know and respect himself, to give him the means whereby he may be enabled to earn an honest livelihood; to teach him habits of thrift and economy, so that some day, from the savings of his industry, he may become a home owner and live a simple life under conditions which give him correct ideas of his civic and social obligations."

OUTPUT OF THE HAND GOLD MINES

The Rand mines are making the largest output on record, and their addition to the world's stock of gold is welcomed. Five years ago many economists and financiers were worrying about the flood of gold and were prophesying lower rates of interest on bonds. Now it seems that the world does not possess gold enough and new bonds are notoriously fetching greatly enhanced rates. It will be recollected, perhaps, that we argued five years ago that the increasing gold production was no cause for alarm and that probably the world's stock of this metal had not increased in the same ratio as the increase in commerce and industry. The recent absorption of large quantities of gold by India has, no doubt, been a factor in the situation.—Engineering and Mining Journal.

"Society ladies are taking up the suffragette cause."
"I always looked for it. Now we'll see the high handshake in politics."

NOTICE OF INTENTION.
Notice is hereby given by the Board of Commissioners of Ogden City, Utah, of the intention of said Board to make the following described improvements, to-wit:

To create the south side of 18th street from Washington to Grant avenue, the south side of 20th street from Adams to Jefferson avenues; the west side of Hudson avenue, north from 29th street for a distance of 504.5 feet, and the east side of Hudson avenue north from 29th street for a distance of 386.75 feet, as a sidewalk district, and to construct thereon a concrete sidewalk five feet wide and four inches in thickness, with the necessary intersections together with the necessary grading therefor, and to defray the whole of the cost thereof, estimated at \$1100, by a local assessment upon the lots or pieces of ground lying and being within the following district, being the district to be benefited or affected by said improvements viz:

All the land lying between the outer boundary lines of said streets and avenue, and a line drawn 50 feet outward from said parallel to the said outer boundary line.

All protests and objections to the carrying out of said intention must be presented in writing to the city recorder, on or before the 31st day of July, 1913, at 10 o'clock a. m., that being the time set by said Board of Commissioners when they will hear said objections as maybe made thereon, at the Mayor's Office, at the City Hall, Ogden City, Utah.

By order of the Board of Commissioners of Ogden City, Utah.
Dated this 7th day of July, 1913.
A. G. FELL, Mayor.
H. J. CRAVEN, City Engineer.
First publication, July 8, 1913.
Last publication, July 30, 1913.

AN ORDINANCE
Amending Chapter 50 of the Revised Ordinances of Ogden City, 1910, by Adding Thereto a Section to Be Known as Section 923X.

Be it ordained by the Board of Commissioners of Ogden City, Utah: Section 1. That Chapter 50 of the Revised Ordinances of Ogden City, 1910, be, and the same is hereby amended by adding one section, to be known as Section 923X.

923X. Whenever the City shall acquire jurisdiction to pave or repave in any paving district now or hereafter created, it shall be the duty of the City Engineer to notify in writing the owners of the property abutting on said paving or repaving district, and require such owners to make all necessary water, gas and sewer connections with the water and gas pipes and sewer thereon, and to extend to such water, gas or sewer pipes to the curb of the streets on either side thereof.

(a) Such notice may be given by personal service upon the owner of said property or upon some one having charge of the same, or by depositing such notice in the post office at Ogden, Utah, postage prepaid, addressed to the owner of said property, or the one in charge thereof, at the last known address of said owner or the one in charge of said property at least twenty days before the time of paving or repaving said street.

(b) If any of the owners of said property shall fail in the time required in said notice to make the necessary water or sewer connections as hereinbefore provided, then Ogden City shall have the right to have said

connections so made and certify the cost of the same to the City Treasurer, who shall thereupon assess the cost of the same against any such property where said connections have been made, and the same shall constitute a lien on said premises, and shall become delinquent after a period of ninety days, and if not paid within that time, the same shall bear interest, and the City may proceed to collect said amount as in case of other special taxes.

(c) Whenever any gas mains are located upon any street where a paving or repaving district is created, the City shall have the right upon twenty days notice to the person or corporation owning or operating said gas plant to require the same to make all necessary connections with said mains and to extend the pipes connected with the same to the curb line on either side of such street, and upon failure of said gas company to make such connections after the time required in said notice, the City may cause said connections to be made, and shall collect the cost of the same from said gas company in the manner provided by law.

Section 2. All ordinances and parts

of ordinances in conflict herewith are hereby repealed.

Section 3. This ordinance shall take effect from and after the date of its publication.

Adopted and passed by the Board of Commissioners at Ogden, Utah, on the 7th day of July, 1913.
Dated July 8, 1913.
A. G. FELL, Mayor.

GEO. A. SEAMAN, City Recorder.
State of Utah, County of Weber, ss.
I, Geo. A. Seaman, City Recorder of Ogden City, Utah, hereby certify that the above and foregoing is a full, true and correct copy of an ordinance entitled AN ORDINANCE AMENDING CHAPTER 50 OF THE REVISED ORDINANCES OF OGDEN CITY, 1910, BY ADDING THERETO A SECTION TO BE KNOWN AS SECTION 923X passed by the Board of Commissioners of said Ogden City on the 7th day of July 1913, as appears of record in my office.

In witness whereof, I have hereunto set my hand and affixed the corporate seal of Ogden City, this 8th day of July, 1913.
GEO. A. SEAMAN, City Recorder.
